

Armstrong Stomp Boxes

New Dan Armstrong stomp boxes released Grafton Electronics has announced the release of its new line of Stomp Boxes. The new features four original stomp box versions of Dan Armstrong's most popular sound modifiers. For the first time ever, the Orange Squeezer, Blue Clipper, Black Reaper and Green Ringer will be available in stomp box format. These boxes are duplicates of the original Dan Armstrong effects, but also include several new features.

"We've been getting tremendous feedback from musicians regarding our original line of Dan Armstrong sound modifiers. One thing we repeatedly heard was a request for a stomp box version of these versatile effects. After months of production and testing we are proud to present an awesome lineup of truly exceptional stomp box devices" Chuck Wojack, Founder of Grafton Electronics said.
